CORE COMPETENCIES

Platform engineering
Azure and AWS cloud foundations; Terraform infrastructure as code; platform architecture and operating handoff.

Kubernetes modernization
Containerization, Azure Kubernetes Service, GitOps delivery, and Kubernetes platform operations.

DevOps enablement
CI/CD pipelines, automated testing, repeatable releases, and hands-on coaching for engineering teams.

Change management as code
Evolve existing change processes with change-ticket traceability, version-controlled infrastructure and release workflows.

Engineering-team enablement
Docker, Kubernetes and Terraform training; runbooks, SOPs and coaching that help teams operate the platform.

Security and compliance engineering
Identity, secrets management and security controls integrated into cloud delivery, with operational evidence and traceability.

DIFFERENTIATORS

Founder-led engineering
Hands-on architecture and implementation, from cloud foundations through operating handoff.

Commercial Kubernetes experience
Healthcare SaaS modernization on Azure Kubernetes Service with Terraform and GitOps.

Enable the client team
Platform delivery paired with engineering training, runbooks and coaching on the updated release process.

PAST PERFORMANCE AND TEAMING

Early Access Care (healthcare SaaS on Azure/Kubernetes): Led the migration from a single Linux server to a containerized app on AKS with Terraform and GitOps, evolved change management into code with enforced commit-level traceability, moved releases from multi-month preparation to a reliable weekly cadence, trained EAC's team on the new platform and change process, and helped fill SRE and developer roles to augment the team.

Commercial healthcare SaaS, publishing and e-commerce, and managed cloud for regulated small practices; references on request. No federal prime or subcontract awards to date.

Teaming: Prime contractor or small-business subcontractor; terms set per opportunity.

COMPANY DATA

LEGAL NAME
Kaan Systems LLC

UEI
D74VLMN2YCQ8

CAGE CODE
23PG9

SAM.GOV
Registered, active; record visible to signed-in SAM.gov users

NAICS (2022)
541512 Computer Systems Design Services (primary)

SIZE
Small business, self-represented in SAM.gov

DELIVERY
Remote, US

CLEARANCES
None (unclassified work)

SBA CERTIFICATIONS
None

CONTRACT VEHICLES
None
